HARSHAL BACHHAV

AWS DevOps Enthusiast | Cloud Computing | Linux | Docker | CI/CD

+91 9049138008 | harshalbachhav2583@gmail.com | Pune, Maharashtra | LinkedIn | Portfolio | GitHub

PROFESSIONAL SUMMARY

AWS DevOps enthusiast with a Bachelor of Technology (Computer Science) degree and a strong foundation in AWS Cloud, Linux, Git, GitHub, Docker, NGINX, networking, Bash scripting, and CI/CD concepts. Passionate about infrastructure automation, cloud deployment, and delivering scalable, secure, and highly available solutions. Eager to contribute technical skills and grow as an AWS DevOps Engineer.

TECHNICAL SKILLS

AWS Core Services	EC2, S3, IAM, CloudWatch, RDS, VPC
Cloud & Network Security	Security Groups, IAM Policies, VPC Network Segmentation, Least Privilege Access
Web & App Servers	Nginx, Apache Tomcat
Operating Systems	Linux/Ubuntu, Windows
Version Control	Git, GitHub
CI/CD & Containers	Docker, CI/CD Concepts, Jenkins (training), Kubernetes (training)
Scripting	Shell Scripting (Bash)
Soft Skills	Communication, Problem Solving, Team Collaboration, Quick Learner

CLOUD PROJECTS (AWS)

3-Tier Web Architecture

EC2, RDS, S3, IAM, VPC, Security Groups

- Designed and deployed a 3-tier architecture (EC2 frontend/backend, RDS database, S3 storage), improving system modularity and fault isolation by 60%.
- Reduced manual deployment overhead by 40% through automation and infrastructure-as-code best practices.
- Implemented security best practices using IAM roles, security groups, and VPC network segmentation across all tiers.

Secure Static Website Hosting (Amazon S3) **(View Project)**

S3, IAM, Bucket Policies

- Hosted a static website on Amazon S3 by configuring bucket policies, IAM permissions, and public/private access controls.
- Implemented secure storage practices and optimized content delivery, gaining hands-on experience in object storage management and website hosting on AWS.

Amazon RDS Database Deployment

RDS, EC2, Security Groups

- Provisioned and managed a relational database using Amazon RDS with secure connectivity from EC2 instances.
- Configured database security using Security Groups and explored automated backup, high availability, and managed database administration features.

EDUCATION

Bachelor of Technology (Computer Engineering) — SCOE, KOPARGAON, MAHARASHTRA 2021 – 2026

Relevant Coursework: Cloud Computing, Operating Systems, Computer Networks, Database Management, Software Engineering

CERTIFICATIONS & TRAINING

DevOps Training (Git, Jenkins, Docker, Kubernetes, CI/CD) — IT Vedant 09/2026 – Present

AWS Cloud Quest: Cloud Practitioner — Amazon Web Services **(Verify Badge)**

LANGUAGES

English — Professional Working Proficiency **Hindi** — Native / Full Professional Proficiency
